Fire Alarm Signals

2 Blows calls out department for
slight fire in Precincts 2 and 4.

2 Blows after an alarm signifies
fire under control.

5 Blows calls department for slight
fire in Precincts 1, 2, 3.

3 Blows with 5 seconds intervals at
7:30 A. M. means no morning session
of any school.

3 Blows at 12:15 P. M. with 5 sec-
onds intervals between blows means
no afternoon session of any school.

9-9—With 5 second intervals Boy
Scouts call.

Note—Where possible, a box alarm
is preferable, as it notifies firemen of
the location of fire. Persons pulling
in an alarm should always wait at box
until the arrival of firemen so as to
direct them to its location.

In giving an alarm by telephone be
sure to give exact location of fire,
street and number, whether serious
or slight, and do not pull in a box alarm
after engine house has been called, as
this is sure to cause confusion.

Drivers must in all cases after an
alarm by telephone press box nearest
to fire when there is the least pos-
sible danger.

Officers will see that a roll call is
held after each alarm and report same
within 4 days to the chief of the fire
department.
